

**STOP**  
**the Robb Drive**  
**Truck Stop!**  
**NoTruckStop.com**

Did you know that Flying J wants to build a big truck stop at the corner of Robb Drive and Interstate 80 in Northwest Reno?

**YOU CAN HELP**

STOP the proposed Flying J Truck Stop. STOP the gridlock traffic that will be caused by trucks clogging the Robb Dr. exits in both directions! Imagine the traffic on the Robb Dr. overpass as hundreds of slow-moving trucks are making left turns in and out of a truck stop. Imagine the nightmare this will create for residents who depend on this exit and bridge to get to and from work.

Truck stops are known to attract drug dealers and prostitutes. They also create air and water pollution. Why would we want this type of business near our residential neighborhoods, churches and schools?

Contact the Reno City Council to protest the building of this project, as it will in no way benefit the neighborhoods of NW Reno! Address: PO Box 1900, Reno 89505. Phone: (775) 334-2001.

Print a sign and put it in your window. Print a flyer like this one and distribute it to your neighbors. Both are available at:
