

No Truck Stop Petition

We the undersigned, do hereby petition our Neighborhood Advisory Board (NAB) and the City of Reno. We are firmly against any action which may lead to the approval of a truck stop at the intersection of Robb Drive and Interstate 80. This includes any proposal that may come before the Planning Commission and or the City Council for Master Plan amendments, Zone changes, and/or a Planned Unit Development, which would lead to the change in the land use just south of the above intersection from its present single family residential zoning.
